

CRC Request for Proposal - CRC Project No. CM-138-16-1
**Literature Review and OEM/Test House Interviews on Alternatives for
Determining Demerits of Vehicle Performance**

Questions and Answers

June 24, 2016

Q: Can the panel provide guidance on the geographical coverage expected (US, Germany and Japan) and an approximate total number of interviews expected to be conducted? These factors will affect the cost estimate significantly.

A: We want the most comprehensive report that can be prepared. If that involves interviewing Japanese and German (and other) OEM's then that factor should be included in the bid.
