

Welcome
to the
CRC Stochastic Pre-Ignition (SPI) Workshop

September 2020

Chris Tennant, Executive Director

Who is the Coordinating Research Council?

- CRC is a non-lobbying, science-focused, 501(c)(3) Not-for-Profit association with 100+ years of research activity.
- Members of CRC constitute the majority of U.S. automotive manufacturers and fuel producers.
- More information and all CRC Final Reports and Workshop proceedings available from:

www.crcao.org

Workshop Guidelines

- This invitation-only event is intended to promote a free and open discussion of the technical topics presented amongst the invited experts.
- The event will not be recorded by CRC. Participants are asked not to make any recordings or capture any images themselves.
- Questions submitted on-line will be used to further the discussion and inform the participants designated as note-takers.
- A written summary will be produced that speakers will be invited to review before finalization. Comments will not be attributed to any person or company.
- The presentations and the summary will be made available to the public by posting to the CRC website.

Questions and Answers via Sli.Do
